Day 82

Sally has $\frac{2}{3}$ of a whole cake in the fridge. Robert eats $\frac{1}{3}$ of this piece. What fraction of the whole cake has Robert eaten?

Choose the number sentence that would solve the word problem.

$$\frac{1}{3} + \frac{2}{3}$$

$$\frac{1}{3} \times \frac{2}{3}$$

$$\frac{1}{3} \times \frac{2}{3}$$
 $\frac{2}{3} \div \frac{1}{3}$ $\frac{2}{3} - \frac{1}{3}$

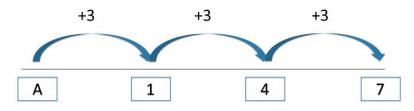

$$\frac{2}{3} - \frac{1}{3}$$
